

CM-CT3.5

FEATURES

- Robust construction with easy access ladders
- Corrosion resistant lining and surface finish
- Operator seat with canopy
- Wheel drive, skid steer with joystick control
- Adjustable drum height
- Easy access and simplified maintenance
- High and low range speed control
- Electronic Management System with failsafe E-stop circuit
- High production throughput and thorough mixing

APPLICATION

Aeration of compost; triangular windrow turner
Windrow size (max) 1.2m H x 3.0m W
Production rates of up to 150m² per hour, depending on the material

SPECIFICATIONS

| | |
|-------------------------|----------------------------------|
| Height | 3,550 mm |
| Width | 5,300 mm |
| Length | 3,500 mm |
| Weight (approx.) | 5,000 kg |
| Diesel Engine | 76kW, Turbo Diesel, Water Cooled |
| Drum Width | 3,300 mm |
| Hydraulic System | |
| Max Flow | 170 lpm |
| Max Pressure | 210 Bar |
| System Oil Volume | 80 litre |
